DASK SETTLEMENT SERVICES

GOING BEYOND AND ABOVE

DASK Immigration Services is not only limited to offering Canadian visa assistance, but we also offer all the packages every individual needs to make their Canadian move a smooth one. Some of the challenges my wife and I faced when we first moved to Canada, was finding accommodation before arriving in Canada because we did not want to get stuck in a hotel for long. In addition to that is finding a job during our first few days or weeks in Canada. Our inability to understand the Canadian system earlier on time hindered our settlement process a little bit. Getting used to the transportation system was also a little tough at first but with time it was manageable.

In order to make everything easier for our clients and other people coming to Canada, we designed three portals that operate independently from DASK Immigration. For Accommodation services, visit; www.daskplace.com for all your accommodation, bed and breakfast needs and house rentals. To find a job in Canada, visit www.daskjobs.com to start browsing and applying to jobs that fit your experiences and qualification

Lastly, to arrange for airport pick-up and other transport needs, visit www.daskpilot.com

DASK IMMIGRATION SERVICES

DASK Immigration Services assists foreign nationals who would like to come to Canada either to study, visit family, to start a business or mover here permanently. To be granted a Canadian visa to come to Canada, every foreign national needs to meet certain requirements under the Canadian Immigration Act and Regulation before being allowed entry to Canada. When all these requirements are met and a processing officer is satisfied that an applicant is a bonafide candidate, who will adhere to the immigration rules and laws of Canada, then a visa or a permit will be issued for entry to come to Canada.

The process leading to the preparation and submitting of a complete application can be very daunting for the average person. It is always advisable to do it right the first time and to make sure you meet all the requirements under the right category you are applying for. Getting the assistance of a professional who has obtained the necessary training and education, and has been approved by a regulatory body in Canada to offer immigration counseling to foreign individuals should be your first option if your aim is to avoid all un-necessary errors during your application process.

DASK Immigration Services is run by Stephen Awudi who is a regulated licensed immigration Consultant in Canada. Stephen has held the position of a Settlement Worker with Saamis Immigration Services, an IRCC funded settlement organization for two and a half years and later moved on to be the Financial Administrator of the same organization. During these years, Stephen has worked with Canadian Government Assisted Refugees from different countries and have developed a good relationship with all these individuals with a full understanding of their culture and interests.

Once an immigrant himself, Stephen knows and fully understands the difficulty involved in applying and obtaining a Canadian visa and permits. It is very important to remember that, seeking professional help is not always expensive as it is always perceived.
